SILENT MEN.

A cotemporary, whom we regret that we are not able to name, wisely says: Washington never spoke. In the zenith f his fame he attempted it, and gave it p confused and abashed. In framing the Constitution of the United States, the labor was entirely performed in the Committee of the Whole, of which Washing mittee of the Whole, of which Washington was chairman; he made two speeches during the convention. It, however, acknowledged the master-spirit, and historians affirm that, had it not been for his speech, pronouncing it the best that could be united upon, the Constitution would have been rejected by the people. Thomas Jefferson never made a speech; he couldn't do it. Napoleon, whose executive ability was almost without parallel, said that his greatest difficulty was in finding men of deeds rather than of words. When asked how he maintained his influence over his superiors in age and experience, when Commander-in-Chief of an army in Italy, he said by reserve. The greatness of a man is not measured by the length of his speeches nor their number.

READ & FOSTER'S

Prepared especially for killing Squirrels, Gophers, Rats, Ants, Moths, Weevil, Phylloxers, Scale, Lice, &c. Is a liquid, which, when applied, fills the burrow with its vapor and thereby kills every occupant of the hole without injuring anything outside. The animal cannot get away but dies in the hole and never becomes offensive Comparing it with other poisons we find that strychnine poisoned wheat. Phosphorus &c. are all inferior to the sulphide in being apit to kill the pet dog, sheep, insectiverous bird, &c. The animal may eat them or not as it pleases, and if eating crawls out and creates a stench or poisons the dog, cat or other pet Read & Foster's Bi-sulphide is safe, cheap and effective, and can be applied by anyone at any time without the least danger. The vapor of this m terial is heavier than air, and by its pressure reaches quickly every crack, crevice or department in the hole, destroying immediately all animals or insects contained therein.

The Carbon Bisulphide is put up in one and three-pound bottles, and six, twelve and fifty-pound cans. Each bottle or can is accompanied by complete directions, and is ready for field work. SAN BUENAVENTURA, May 2, 1883 .- I am a day late this week, but trust the gentle and generous readers of the TIMES will pardon me my tardiness, as, like many another good citizen, I "got too much May-day." May-day has always been a big day in Ventura. We have drifted into a southern, sunny, semi-tropical land-but the spirit of out old Scandinavian ancestors is still strong within us, and we keep sacredly an old mythological feast, though to us degenerate sons of Viking sires its full significance has long been lost. SHOOTING MATCH. The long-looked for shooting match has come and gone with May-day, and our local sportsmen will now, for a time, cease mashing harmless lumps of clayyclept "clay pigeons"—that "never done anything to them." The boys did some good shooting, too. If you don't believe it let the City of the Angels pick out a team and send us up a challenge. Mr. J. M, Kaiser is the champion, he getting ten out of a poschampion, he getting ten out of a possible twelve birds, while several scored as high as nine, and that at a forty yards rise, in an unfavorable wind. Can you show anything as good down there? I don't believe it. At any rate an intercounty match would be a good thing to agitate, as tending to form amicable relations between Venture and Low Neutrine. tions between Ventura and Los Aneles sportsmen, and, in all probability, eading to an united effort to enforce the game laws, particularly in regard to deer. The very best deer country in Southern California lies on the boundaries of the two counties, and the boundaries of the two counties, and the hunters of one county can do nothing for the protection of game without the cordial co-operation of the hunters of the other.

PLEASANT PARTY. The social event of the season was the grand ball given by the Rod and Gun Club at Spear's Hall last evening. The elite of Ventura turned out en masee, of course, and a more pleasant assemblage of "fair women and brave men" it has not been my good fortune to see for a long time. Ventura is slightly famous for her public displays, in fact, and last evening's turn out was no exception to the rule. Handsome men with smiling countenances beaming above immaculate shirt-fronts, and fair beauties who would have fairly maddened King Priam's son, and made him leave Menelaus in undisturbed pos-session of his fair bethrothed, were Sugar-cured..

Don't less this is agitating a long way ahead but as I said before, Ventura has the reputation of always making a big display on public occasions—and move you know the secret of it. Don't tell amybody I told you, though, as I merely mentioned the matter in order to invite Los Angeles horsemen to come up and participate, assuring them, also that it is no part of Ventura's creed to return evil for evil. We admire fast stock in this locality—somewhat priding ourselves on our own, too—and are willing to pay for the privilege of seeing it travel.

CONSULTATION FREE.

I INVITE THE SICK, no matter what their diseases may be, to call and investigate for them. relves before abandoning a l hope, for it will cost you nothing. I give no encouragement unless there is a fair prospect of making a cure. I will endeavor to be candid in my opinion, and reasonable in my charges. I claim not to cure everybody, but to cure all that can be cured. I am formerly from New York city, and a graduate of one of the best medical colleges in the United States, and a most thorough Electrician, and have had many years successful practice in the treatment of both acute and chronic diseases. To remove all doubts and convince my patients that I claim nothing but what I am, I refer to my duploms and the numerous recommendations in my possession, which will always be ready for inspection at my office.

I have located permanently in this city, and all I ask is that you give he a fair, unbiased trial, by which I hove to merit your confidence and give entire satisfaction to all suffering humanity. My reputation has been acquired by candid, honest dealing, and years of successful practice. I know the cause and the remedy needed, not by guess-work, but by years of experience in the treatment of various diseases.

I HAVE NO ONE CURE-ALL!

Nor do I make a hobby of any one mode of treatment. I use Electricity or Medicines, or both, as cases may require. I believe in proving all things and holding fast to that which is good. I am aware that it is a positive fact that the majority of diseases are caused by impure blood, and the only way to promote a cure is to remove the poison and build up the system by requiring the obstructed excretory organs to do their proper duty. I find the cause, remove the and nature, assisted by medicinal remedies properly applied, will promote a cure without fall.

ANAHEM, May 2.—Anaheim was well represented at the Mayday picnic held at the Santiago oak grove yesterday. The attendance from all the neighboring towns was also large, and there were probably dive to six hundred people present, although the attendance will be variously estimated by different persons at from a "handfull" to five thousand. As usual, Anaheim was credited with having the prettiest girls and the best dancers on the grounds. There were plenty of refreshments provided, and the usual amusements. Many who attended report having had a good time, while others did not enjoy themselves so well. About the beginning of the Fifth Century, the Salians, after their settlement in Gaul, under their King. Pharmond, they framed a body of laws which have since been known as Salic; but at that time those law makers knew nothing of the wonderful discovery which works harmoniously with nature's laws, and which is a positive boon to those suffering from Rheumatism, Gout or Neuralgia. We refer to that common-sense remedy, Salicylica. BROWN'S PEPSIN TONIC. Is the sovereign remedy of the age for Dys-pepsia and Indigestion. A sour stomach or distress from eating is corrected at once.
